CARE AND MAINTENANCE

Your MacGyver Security Screen should only ever need to be washed down with a soft brush using warm water and a mild detergent. Rinse well with fresh water to remove any detergent residue. Do not use strong detergents or abrasive cleaners as they may scratch or damage the surface finish.

The frequency of this maintenance is determined by the location of the product. Refer to the suggested maintenance table.

POPULAR COLOUR RANGE

At MacGyver we are always being asked what the top specified powder coat colours are. To make it easy for consideration with your next project, here is the list of our popular 13 warranty powder coat colours.

Monument Matt

Paperbark Satin

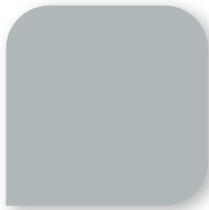

Pearl White Gloss

Primrose Gloss

Surfmist Matt

Ultra Silver Gloss

White Birch Gloss

Woodgrain

Woodland Grey Matt

Colour Disclaimer

Colour representations in this brochure are for illustrative purposes only. You should request actual samples before placing your order. All of our products are powder coated and come in various different colours.

Please note that non-standard colours may incur an additional surcharge and a longer lead time, but your friendly and professional Macgyver consultant will discuss that with you in more detail.

PLANTATION STYLE SHUTTERS

Style & Sophistication in One

If you like the appearance of timber shutters, but not the maintenance, Fauxwood is the way to go. It is the most popular material in window furnishings. Fauxwood is an extruded resin product that perfectly mimics the look and feel of timber but will not warp, peel, split or shrink.

Fauxwood Eco Shutter is VOC compliant, termite proof and has excellent insulation properties.

Fauxwood shutters are available in a wide range of finishes or any colour you specify. The paint finish is superior quality that will not chip or peel.
